It's Hard To Stop A Trane.®

It's like taking your home with you.

Being connected to your home with Trane and Nexia™ will give you all the control you've been looking for in heating and cooling. With simplicity and ease from anywhere, your home is at your fingertips. With Trane's innovative controls, you can make it a warmer winter or cooler summer from most web-enabled devices, like your smartphone. Remote Climate Access is included at no additional charge with every Trane Connected Control*. And that means there is one for every home, starting with yours.

Come home to your ideal home environment with Nexia.

There's so much more you can do when you're connected to your home. Like easily changing the temperature before you arrive or if you forgot to set it before you left. Or reduce costs by setting up a schedule or putting your comfort system into an energy savings mode when you're away. Plus, you can enjoy the convenience and security of text and email alerts. The possibilities are practically endless with Trane's Nexia-enabled controls.

You're always up-to-date.

Upgradable software comes standard with all of our Nexia-enabled controls so you'll be current with all of the latest innovations available.

*Expand your Nexia system by adding compatible smart products.** Whenever you want to grow your home's connections, Nexia can offer you a way. Ask your Trane dealer for details, or visit nexiahome.com.*

*Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia smart home system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

**Optional Nexia Bridge is required when adding Z-Wave devices to Trane XL624 and XL950 Connected Controls.

Nexia is also compatible with Z-Wave® devices.

Z-Wave® is a registered trademark of Zenস্য Inc. and/or its subsidiaries.

A CLOSER LOOK AT TRANE NEXIA™-ENABLED CONTROLS.

*Trane ComfortLink™ II XL950 Zoning Control combines zoning technology and aesthetics to give you a home management tool for remotely controlling the comfort of your home. It's easily accessible from a smartphone, tablet or computer, which makes adjusting the temperature for your family's comfort a breeze.**

Trane ComfortLink™ II XL850 Control lets you control your ComfortLink communicating system's energy consumption from anywhere in the world with any internet-enabled smartphone, tablet or computer. Remotely control your home too, thanks to the built-in Nexia Bridge.*

Trane XL824 Control helps you reduce your heating and cooling system's energy consumption with any internet-enabled smartphone, tablet or computer from anywhere in the world, and thanks to the built-in Nexia Bridge, you can remotely control your home too!*

Trane XL624 Control features humidity sensor, filter service and maintenance reminder alerts, and allows you to manage your home comfort from anywhere with the most up-to-date tools available. (Remote features require an optional Nexia Bridge, high speed router and connection to Nexia.)
